

INFECTION CONTROL – GREEN, CHEMICAL FREE TECHNOLOGY

SILVERWATER TECHNOLOGY WATER DISINFECTION SYSTEMS

Eliminate the need to purchase distilled water and replace with a de-ionizing system for autoclave use, no more bottles laying around...

- Dental Health Service Victoria endorsement.
- Protect dental water lines against bio-film build up.
- Legionella control confirmed by EML lab.
- Eliminate the need for waterline maintenance.
- Installed in over 150 dental clinics across Australia.
- Highly cost effective and highly efficient, simplistic installation and operation.
- The combination of safe oxidisation cleaning and Silver colloid technology adhesion is cost effective and ultra safe.
